

KEITH LIEBERMAN

Senior Vice President, Community & Land Development Market Leader, Board Member

T& M Associates

Keith Lieberman is senior vice president with T& M Associates, a position he has held with the Bethlehem-based firm for the past six years. T& M is a consulting, engineering, environmental and technical services firm.

“In my role as market leader for community and land development and a T& M board director, I focus on corporate strategy and on leading a team of nearly 100 professionals dedicated to civil engineering for the communities and real estate developers we serve,” Lieberman said.

Lieberman also supports the T& M Foundation, which enriches communities through acts of volunteerism, charitable giving and promoting STEM (science, technology, engineering and math) education.

“At T& M, our mission statement is to improve neighborhoods, infrastructure and environment one project at a time. We achieve this mission by growing our team of talented professionals and the number of projects

we complete to enhance the communities and clients we serve,” Lieberman said.

Among significant achievements in 2024 under Lieberman’s leadership T& M doubled the number of engineers in its Bethlehem office – a significant growth step given the current engineering shortage. “This strategic expansion brings T& M’s mission to the Greater Lehigh Valley,” Lieberman said.
